STATEMENT OF ISSUES RAISED BY FRANCINE SILVER.

1. Judge Glenn should have disqualified himself due to his previous relationship with former Judge Peck who helped mediate the settlement plan before joining the law firm of the Debtor's while the case is still active and thereby bringing Judge Glenn's impartiality into question for this and other reasons?

2. The claim should have already been paid and the Objection was made in direct violation of Article VIII and the Controlling Language of the plan.

3. The definition of "Allowed Claim" is an issue.

4. When allowed claims should be paid is an issue.

5. Does the Doctrine of Promissory estoppel apply to Appellant?

6. May the Judges refuse to accept additional evidence in response to testimony at the limited evidentiary hearing?

7. Was the Keeley testimony believable and could a valid assignment really have occurred?

8. Why was default Judgment not granted when Debtors failed to respond to the motion for payment?

9. Does failing to respond to the appellant motion for payment mean the arguments were conceded to?

10. Did Appellant receive Due Process?

11. The objection was full of factual inaccuracies and misinformation.

12. The proof of claim constituted prima facie evidence of the validity and amount of the claim and no believable evidence to an impartial party was presented to counter it,

13. All elements of the claim were supported by factual, believable evidence and supporting documentation.

Respectfully,

Francine Silver
